Statement of intent

Under the Equality Act 2010, schools should have an Accessibility Plan.

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”.

According to the Equality Act 2010 a person has a disability if: (a) He or she has a physical or mental impairment, and (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education’s guidance on statutory policies for schools. The Plan will be reviewed every 3 years or where operational needs dictate and approved by the Governing Body. The review process can be delegated to a committee of the Governing Body, an individual or the Head.

This plan outlines the proposals of the governing body of Eastfield Primary School to increase access to education for pupils with disabilities in the three areas required by the planning duties in the Equality Act 2010.

1. Increasing the extent to which pupils with disabilities can participate in the school curriculum;
2. Improving the environment of the school to increase the extent to which pupils with disabilities can take advantage of education and associated services;
3. Improving information delivery to pupils with disabilities.

The governing body also recognises its responsibilities towards employees with disabilities and will:

- Monitor recruitment procedures to ensure that persons with disabilities are provided with equal opportunities
- Ensure that employees with disabilities are supported with special provision to ensure that they can carry out their work effectively without barriers.
- Undertake reasonable adjustments to enable staff to access the workplace.
